PROFESSIONAL SUMMARY

Highly organized and detail-oriented professional with experience in Executive Virtual Assistance, customer service, data entry, and entry-level data analysis. Skilled in calendar and inbox management, client communication, CRM systems, research, and reporting, with hands-on training in data cleaning, visualization, and analysis using Excel, Google Sheets, Power BI, SQL, and Python. Experienced in supporting remote teams, managing workflows, and handling high-volume customer interactions with accuracy and professionalism. Adept at combining operational support with a data-driven mindset to improve efficiency, decision-making, and business growth.

KEY SKILLS

- Executive Virtual Assistance: Calendar & inbox management, meeting coordination, task tracking, document organization.
- Customer Service & Client Support: Call handling, issue resolution, CRM updates, and professional communication.
- Data Entry & Data Management: Accurate data entry, record maintenance, spreadsheet management, data validation.
- Data Analysis (Entry-Level): Data cleaning, exploratory analysis, basic reporting and visualization
- Analytics & Data Tools: Microsoft Excel, Google Sheets, Power BI, SQL, and Python.
- CRM & Support Systems: HubSpot, Zendesk, Zoho CRM, ticketing systems
- Research & Reporting: Online research, data collection, report preparation, insight presentation
- Task & Workflow Management: Notion, Trello, monday.com, Google Calendar
- Productivity & Communication Tools: Google Workspace, Microsoft Office, Zoom, Microsoft Teams, WhatsApp
- Professional Skills: Time management, attention to detail, confidentiality, problem-solving, remote collaboration.

PROFESSIONAL EXPERIENCE

Data Entry & Validation Specialist

SnappyCX – Sustain, LLC (Cleveland, Ohio) | Remote | Feb 2026 – Apr 2026

- Entered, reviewed, and validated structured data to ensure records were accurate, complete, and consistent.
- Cross-checked information across records to identify discrepancies, missing details, and data-entry errors before final submission.
- Corrected and standardized data while following established guidelines and quality-control requirements.
- Maintained high attention to detail when handling repetitive, high-volume data tasks and meeting project deadlines.
- Flagged unclear or inconsistent information for further review rather than making unsupported assumptions.
- Supported overall data quality by ensuring records met required formatting, completeness, and accuracy standards.

Executive Virtual Assistant (Freelance / Remote)

Upwork & Contract Roles | Aug 2024 – Aug 2025

- Provided executive and administrative support including inbox and calendar management, scheduling, and document organization.
- Monitored emails, WhatsApp, and work communications, filtering priorities and following up on tasks and deadlines.
- Performed accurate data entry, maintained spreadsheets, and updated CRM systems.
- Conducted online research and prepared structured reports to support decision-making.
- Used tools such as Google Workspace, Notion, Trello, Zoom, and CRM platforms to ensure smooth daily operations.

Call Center Agent / Independent Travel Agent

ASAP Tickets (Dreamport) (Wilmington, Delaware) | Dec 2024 – Jul 2025

- Handled high volumes of inbound and outbound customer calls for flight bookings, changes, cancellations, and payments.
- Converted customer inquiries into completed bookings, supporting revenue retention and reducing cancellations.
- Resolved complex customer issues calmly and efficiently, improving satisfaction and reducing repeat calls.
- Maintained accurate customer records and transaction details in internal systems.
- Built customer trust and repeat business through clear communication and ownership of issues.

Data Analysis Projects (Practical Training)

WorldQuant University & ALX Africa | 2025

- Completed multiple hands-on data analysis projects involving data cleaning, exploration, visualization, and modeling.
- Worked with Python, SQL, Excel, Power BI, MongoDB, and SQLite to analyze real-world datasets.
- Built dashboards and reports to communicate insights clearly to technical and non-technical audiences.
- Applied statistical methods, regression models, clustering, time-series analysis, and A/B testing concepts.

EDUCATION & CERTIFICATIONS

- Bachelor of Science in Analytical Chemistry – Jomo Kenyatta University of Agriculture and Technology (JKUAT), Kenya, 2021
- Data Analysis Certificate – WorldQuant University, 2025
- Professional Foundations Certificate – ALX Africa, 2025
- Virtual Assistant Certificate – ALX Africa, 2024
